PROFESSIONAL SUMMARY

Senior Business Analyst and e-Governance Transformation Specialist with **5+ years** of progressive experience in end-to-end IT project delivery, requirement gathering, BRD/FRD/SRS authoring, EoI/RFP/proposal preparation, and government stakeholder coordination. Currently serving as **sole BA for MPMKVVCL — Govt. of Madhya Pradesh DISCOM digital transformation** — independently managing 27+ modules, 30+ member dev team coordination, and DGM/Director-level client engagement. Expert in **BRD, FRD, SRS, HLD, LLD, DPR, EoI, RFP, GAP Analysis, UAT management, process re-engineering, and MIS reporting**. Certified **ECBA (IIBA)** — formally credentialed in Business Analysis standards (BABOK v3). Power BI Expert (98% score). Prior strategic delivery at **Tata Power** across a \$2B+ renewable energy portfolio with 300+ compliance audits — zero violations. Bhopal-based; available on-site at IT Park (Bhopal) or Indore.

PROFESSIONAL EXPERIENCE

Lead Business Analyst

January 2026 – Present

Tagbin Pvt Ltd | Client: MPMKVVCL — Govt. of Madhya Pradesh State DISCOM | Bhopal, MP · On-site

- ▶ **Requirement Gathering & e-Governance Delivery:** Serve as sole BA and single PoC between a 30+ member development team and DGM/Director-level MPMKVVCL Govt. stakeholders — independently owning the complete BA lifecycle across 27+ modules from discovery through developer handoff, UAT, and iterative sign-off.
- ▶ **BRD / FRD / SRS Authoring:** Authored 1,219-paragraph Travel Allowance FRS (v1.0–v4.0, 34 business rules, 11 claim statuses) and 951-paragraph Medical Reimbursement FRS (24 business rules, 14 claim statuses) — covering multi-mode reimbursement, bi-directional approval workflows, ceiling enforcement, advance ledger, and retroactive order flows.
- ▶ **EoI / DPR / Proposal Documentation:** Translated 5 complex Govt. policy documents (TADA Circular, MP Finance Dept Order, MPMKVVCL Board Resolution, MP Civil Services Medical Attendance Rules 2022, and DOP 6th Edition — 5,000+ lines) into developer-ready functional specifications aligned with regulatory frameworks.
- ▶ **Technical Architecture & Solution Design:** Designed dynamic master data configuration framework, Oracle EBS 2.0 finance posting payload (14+ fields, CSV/JSON/API), 8-role RBAC matrix, bi-directional approval workflow engine, Email+SMS notification framework, and full audit trail architecture — eliminating all hard-coded regulatory values.
- ▶ **UAT Management & Issue Resolution:** Managed complete SIT/UAT lifecycle — test scenario definition, defect tracking, stakeholder review cycles (4+ iterations), and formal sign-off discipline across all 27+ modules with full Requirements Traceability Matrix (RTM) maintained throughout.
- ▶ **Client Engagement & Workshop Facilitation:** Conducted structured requirement elicitation workshops with senior Govt. officials; prepared meeting documentation (MOM), process flow diagrams, and wireframes for all modules; managed ongoing stakeholder expectations across multi-department delivery.
- ▶ **MIS Reporting & Power BI Analytics:** Deployed 27+ analytical dashboards across DISCOM functional areas (Operations, Finance, Customer Service, Network, Energy Analytics) with 11-level hierarchical RLS integrating SAP, Oracle, and SQL Server — providing real-time KPI visibility to senior management.
- ▶ **Process Automation & Transformation:** Suggested and implemented process automation opportunities across claim workflows — fully digital Prolonged Illness Certificate management, automated advance ledger carry-forward logic, and notification engine replacing manual follow-up processes.

Business Analyst

December 2024 – January 2026

Starlink TNC Pvt Ltd | Remote

- ▶ **GAP Analysis & Process Re-engineering:** Conducted end-to-end business requirements analysis and AS-IS/TO-BE process mapping for FMCG and BFSI clients; delivered structured GAP analysis reports highlighting improvement opportunities and informing product prioritization.

- ▶ **Proposal & Solution Documentation:** Authored user stories, functional specifications, and solution briefs for client presentations; supported EoI and RFP-equivalent documentation for business development proposals.
- ▶ **Analytics & Agile Delivery:** Developed executive KPI Power BI dashboards for cross-sector clients; facilitated solution design workshops; supported Agile/Scrum ceremonies — sprint planning, backlog grooming, and UAT planning.

Lead Associate — MIS & Business Intelligence

January 2022 – November 2024

Tata Power Company Limited | Mumbai, Maharashtra

- ▶ **CEO-Level Strategic & MIS Reporting:** Managed MIS operations for 970+ renewable energy sites (Solar, Wind, Hybrid) representing a \$2B+ portfolio; synthesized board-level presentations and investor relations reports for C-suite and external stakeholders — equivalent to senior government reporting function.
- ▶ **Enterprise Power BI Architecture:** Architected enterprise-level Power BI dashboards with Star/Snowflake data models, advanced DAX time-intelligence, and 11-level hierarchical RLS for 200+ stakeholders; tracked CUF, OPEX/kWh, Operating Margin, and Asset Lifecycle Value.
- ▶ **Compliance & Risk Management:** Managed statutory compliance documentation and coordinated 300+ regulatory audits with zero non-compliance findings; conducted variance analysis and performance anomaly detection across Finance, Legal, O&M, and PM teams. Recipient: Illuminous Award — Tata Power Annual Excellence Recognition.
- ▶ **Team Leadership & Process Automation:** Led 4 associates; VBA and Python automation reduced manual processing by 30%; improved reporting accuracy by 40%; designed SQL views and stored procedures for SAP/Oracle data extraction.

Site Operations Trainee— Performance & Data Analytics

April 2021 – December 2021

Tata Power Renewable Energy Ltd. | Rajasthan

- ▶ **Plant Operations & Data Analytics:** Directed O&M for 300 MW solar plant (18 technicians); achieved 99.7% plant availability — 2% above industry benchmark; drove 1.8% increase in annual energy generation (~5.4 GWh) through yield analysis.
- ▶ **Predictive Analytics & Risk Mitigation:** Implemented predictive maintenance analytics reducing unplanned downtime by 22% (~\$1.2M annual savings); maintained 100% EHS/Safety compliance with zero Lost Time Incidents.

TECHNICAL SKILLS & PROFICIENCY

Business Analysis	BRD, FRD, SRS, HLD, LLD, DPR, EoI, RFP, Concept Notes, GAP Analysis, AS-IS/TO-BE, RTM, Use Cases, User Stories, Process Mapping, Wireframing, Feasibility Studies, Effort Estimation
e-Governance & Govt.	End-to-end e-Governance Solution Delivery, Govt. Stakeholder Management, Policy-to-System Translation, Regulatory Compliance, DPR/RFP/Tender Documentation, Workshop Facilitation, MOM Documentation
Project Management	SDLC, Agile/Scrum, Sprint Planning, Backlog Grooming, UAT/SIT Management, Stakeholder Coordination, Vendor Management, Risk Assessment, Change Management, Delivery Tracking
Business Intelligence	Power BI (Expert), DAX (Advanced), M-Query, Star/Snowflake Data Modeling, 11-Level Hierarchical RLS, Power BI Service/Cloud, MIS Reporting, Predictive Analytics, Financial Modeling
Programming & Data	SQL — Advanced (Views, Stored Procedures), Python (Pandas, NumPy), VBA Macro Automation, Oracle EBS 2.0, SAP Integration, API Integration Design, Dynamic Master Data Config, Audit Trail Architecture
Tools & Platforms	JIRA, Confluence, ClickUp, MS Office Suite, Visio, Oracle EBS 2.0, SAP, SQL Server, Power BI Service/Cloud, Git, RBAC Design

KEY ACHIEVEMENTS & IMPACT

- ▶ **ECBA Certified (IIBA)** — Formally credentialed Business Analyst — BABOK v3 certified; aligned with international BA standards for e-Governance and IT project delivery.
- ▶ **Illuminous Award** — Tata Power Annual Excellence Recognition — outstanding contributions in executive coordination, MIS delivery, and business intelligence.
- ▶ **1,200+ Para FRS** — Solo-authored for Govt. of MP digital transformation — 58+ business rules, multi-level approval workflows, Oracle EBS 2.0 integration specifications.
- ▶ **27+ Module e-Governance Delivery** — Currently sole BA delivering end-to-end DISCOM digital transformation for Govt. of MP — 30+ dev team, DGM/Director-level stakeholders, full lifecycle ownership.

- ▶ **Zero Non-Compliance** — 300+ regulatory audits with zero violations managing MIS for 970+ renewable energy sites (\$2B+ portfolio) at Tata Power.
- ▶ **22% Downtime Reduction** — Predictive analytics at 300 MW solar facility → ~\$1.2M annual savings; 99.7% plant availability — 2% above industry benchmark.
- ▶ **30% Effort Reduction** — VBA and Python automation across MIS workflows; 40% improvement in reporting accuracy through team quality standards.

EDUCATION

B.Tech — Electrical Engineering SSGB College of Engineering, Dr. B.A. Technological University	77.9% 2024
